

# THE FREEDOM GREENHOUSE

- Improved design of the freedom box capable of harvesting heat more efficiently and does not require using mineral oil
- The shape and size of the greenhouse has been calculated to produce enough food for a family of 4 and be heated by running a freedom box
- The greenhouse incorporates the freedom box into it's unique design

***Measurements Between Pieces in Millimeters and Inches:***..... 80

## *Introduction:*

Hey guys, Alex here, I want to welcome you to the Bitcoin Green House Pdf Guide.

In this document you'll find the Measurements for all the parts to assemble the greenhouse, in millimeters and inches. Also you'll find the measurements between all the parts.

For cutting all the wooden parts you will need a circular saw, but you can also use a hand saw.

DISCLAIMER: Make sure you follow the safety instruction for operating for operating power tools or have professionals handling them safely.
